LE NOSTRE RADICI  
IL NOSTRO TERRITORIO

La provincia di Cremona è stata nei secoli modellata dall'acqua, l'uomo pur sfruttando questa risorsa ha saputo rispettare sapientemente il suo corso e caratterizzare i propri manufatti.

OUR ROOTS  
OUR TERRITORY

The province of Cremona has been over the centuries modeled by water. The man, exploiting this resource, knew wisely how to respect its course and characterizing their products.

# industrial job

La collezione di rubinetteria INDUSTRIAL JOB disegnata da Andrea Zani, interpreta la versatilità della manifattura italiana inserendo un mood tipicamente americano, donando un nuovo linguaggio estetico nel panorama domestico. La forma moderna e pulita si contrappone al design industriale caratterizzato da toni rigorosi, questo binomio, rende la collezione adatta per ogni ambiente, sia residenziale che dell'hotellerie.

The INDUSTRIAL JOB faucet collection designed by Andrea Zani, interprets the versatility of Italian manufacturing by inserting a typical American mood giving a new aesthetic language to the domestic scene. The modern and clean shape contrasts with the industrial design characterizes rigorous tones, by combining them, creates a collection suitable for any environment, both in the residential community and hospitality industry.

design Andrea Zani

Il conformismo estetico rappresentato dai media propone linee continue che soddisfino la comfort zone visiva, INDUSTRIAL GAS si contrappone a questi stilemi, la discontinuità formale unita alle linee di luce generate dalla trame incise, rappresentano la vera essenza del prodotto e ne descrivono la sua storia visiva. Un oggetto d'arredo raffinato, in grado di evocare forza ed eleganza, i piccoli dettagli estetico funzionali donano una sofisticata ricercatezza.

The aesthetic conformism represented by the media proposes continuous lines that satisfy the visual comfort zone, so INDUSTRIAL GAS contrasts with these styles. The discontinuity form, combined with the lines of light generated by the engraved textures represents the real essence of the product and describes its visual history. A refined piece of furniture, able to evoke strength and elegance, the small functional aesthetic details give a sophisticated refinement.
